Wizard of Oz Themed Event

Deadline for tickets is 7/15. Get them here: <http://www.rebeccaeverlene.org/lollipop.html>

On July 19, 2015 **from 1:00pm to 4:00pm**, The Rebecca Everlene Trust Company will host a Wizard of Oz themed Lollipop Kids Spectaculaire Event, which will include two separate workshops; **a writing seminar and a fun with science adventure**. Childhood should represent a time of magic and wonder for children; a time where no idea is too outlandish or fantastical. On this occasion, we invite your kids to let go of their boundaries and join the ranks of famous authors and scientists to create magical worlds out of nothing more than their imaginations. The features of each workshop are provided below– lots of great door prizes as well.

Writing Workshop

As part of our continuing endeavor to foster the creativity and imagination of young people, we are offering the following activities:

- Creation of fantasy costume (silly hat included), courtesy of Designs by Alison
- Collaborative brainstorming freewrite sessions
- Collaborative improvisation of Roald Dahl's *The Witches* with performance group "Valid Hysteria"
- Artistic representation of the fantasy (drawings, sketches, etc.) by Illustrator Adria McKennon, Artist Kelsey Huckaby Johnson, Tina Zeng
- Your child's name entered to win a free visit to see the WNBA Chicago Sky ladies play basketball front and center
- Lunch by Apart Pizza, and dessert from Eli's Cheesecake, and Brown Sugar Bakery

The best and most imaginative sentences will be compiled into a story all its own, and that story will be published by the Jeune Hope Content Group for the world to see. The young authors will of course be acknowledged for all of their hard work and receive full credit.

Cost:
\$45 for children who want to be published, \$20 for the regulars or two for \$35
\$20 for parents

Fun with Science

A day with us will give your kids a chance to see some of the coolest science experiments around and participate in hands-on demonstrations. Activities for the day are as follows:

- Complete an ocean in a bottle physics experiment
- Make a bouncy ball from scratch
- Create an edible candle
- Learn what makes Intellectual Practice Jello glow
- Learn how to make an Ice Ball
- A reading of the "Santa Claus Trial" by Allen Rafalson, President of the Chicago Journalists Association
- Work with a Bio-Rad Science Ambassador that will guide kids through a DNA extraction experiment, collecting their own DNA and providing them with a keepsake ornament containing their unique precipitated DNA
- Your child's name entered to win a free visit to see the WNBA Chicago Sky ladies play basketball front and center
- Lunch by Apart Pizza, and desserts from Eli's Cheesecake, and Brown Sugar Bakery

Cost:
\$20 for children or two for \$35
\$20 for parents
